SOIL MECHANICS AND FOUNDATION ENGINEERING
Volume 11, Numbers 1-6, 1974

(A translation of Osnovaniya, Fundamenty i Mekhanika Gruntov)

Volume 11, Number 1 January-February, 1974

	Engl./Russ.	
TRIBUNE OF THE ALL-UNION SOCIALIST COMPETITION		
Socialist Competition – An Effective Means of Accelerating the Rate of Foundation Engineering – S. T. Plevko	1	2
Achievements of Moscow Foundation Engineers in the Socialist Competition for Fulfillment of the Third, Decisive Year of the Ninth Five-Year Plan (Work of the No. 2 Moscow State Trust for Foundation Construction) – V. T. Belov and K. B. Ézdrin	4	3
FOUNDATION ENGINEERING		
Investigation of the Interaction of Braced Building Frame, Foundation Slab, and Soil Base – S. A. Rivkin	10	6
Area of Use of Pile Foundations without a Grillage for Large-Panel Apartment Buildings – A. A. Obodovskii	16	10
Overturning Resistance of High Towers of Variable Section on a Deformable Base – N. K. Snitko	19	11
Investigation of the Effectiveness of a Hammer Blow in Pile Driving – V. G. Esipenko	25	14
FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS		
Use of the Roller Bit Drilling Method for Quality Inspection of the Concrete of Bored Piles – V. V. Rzhevskii, B. N. Kutuzov, and A. I. Egorov	28	16
CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS		
Use of Piles in Expansive Soils – E. A. Sorochan	33	19
UNDERGROUND CONSTRUCTIONS		
Application of Probability-Theory Methods to the Design of Buried Pipelines, with Allowance for Soil Reaction – A. Durdykuliev and G. K. Klein	39	22
ADVICE TO DESIGNERS AND INVESTIGATORS		
Calculation of the Injection of Stabilizers with Consideration of Their Weight – B. P. Gorbunov	43	25
Determination of Deformability Characteristics of Rock Foundation Beds by the Seismic (Seismoacoustic) Method – N. V. Shan'gin	46	26
Refinement of the Calculation of a Pile Foundation as a Conditional Massive Foundation – D. M. Shapiro	50	28
CONSTRUCTION PROPERTIES OF SOILS		
Relation between Elastic and Strength Characteristics of Soils – D. D. Barkan, Yu. G. Trofimenkov, and M. N. Golubtsova	51	29
Consolidation of Peat Soils – N. N. Morareskul and V. N. Bronin	55	31
SOIL MECHANICS		
Experimental Laboratory Investigations of Vibration Creep of Sandy Foundation Beds – M. N. Gol'dshtein, V. Ya. Khain, and V. S. Bogolyubchik	59	33

		Engl./Russ.
Vertical Displacements of a Base under the Effect of a Flexible Load Distributed on a Rectangle according to the Bivariate Polynomial Law – V. S. Urisman	63	35
Concerning the Parameters of M. M. Filonenko-Borodich's Model of a Base – G. B. Muravskii	66	37
DISCUSSIONS		
Is It Necessary to Take into Account Natural Pressure when Calculating the Settlement of a Thawing Base? – V. F. Zhukov	68	38
"Recommendations on Calculation of Pile Foundations for Vertical and Horizontal Loads".	73	40
INFORMATION		
International Conference "Problems of the Design and Construction of the Substructure of Buildings" – É. I. Mulyukov and I. B. Ryzhkov	75	41
Results of the Third All-Union Conference on Dynamics of Bases, Foundations, and Underground Structures – D. D. Barkan	77	42
Interinstitute Conference on Construction on Loess – V. P. Anan'ev and Ya. D. Gil'man	81	44
Joint Conference on Engineering-Geologic Explorations for the Design of Pile Foundations – B. V. Bakholdin and V. B. Petrenko	83	45
BOOK REVIEWS		
T. Sh. Shirinkulov. Calculation of Engineering Structures on an Elastic Nonuniform Base – Reviewed by G. K. Klein	85	46
M. P. Lysenko. Composition and Physical and Mechanical Properties of Soils – Reviewed by E. M. Perlei and R. M. Narbut	87	47

Volume 11, Number 2 March-April, 1974

Work Better Tomorrow Than Today!	89	2
TRIBUNE OF THE ALL-UNION SOCIALIST COMPETITION		
Strengthen the Union of Science and Industry – B. S. Fedorov	92	3
FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS		
Struggle for a High Quality of Foundations – One of the Most Important Problems of Builders – E. S. Gladkova	95	4
Construction of Underground Structures in Unstable and Running Ground by the Method of Sinking Timbering in a Thixotropic Jacket – Kh. I. Abramson, É. V. Sandukovskii, V. P. Samoilov, and T. N. Tsai	98	6
Experience in Using the PVT Suspended Vibrotamper – V. P. Gorganev	103	9
FOUNDATION ENGINEERING		
Calculation of Piles and Cylindrical Shells for Horizontal and Fictitious Loads – K. S. Zavriev	105	10
FOUNDATION ENGINEERING ECONOMICS		
Technical and Economic Analysis of Standard Unified Foundations of Series 1.412-1,2 for Columns of Industrial Buildings – A. F. Sokolkin	108	12
ADVICE TO DESIGNERS AND INVESTIGATORS		
Formulas and Graphs for Calculating Settlements of Profile-Type Earth Structures – I. Z. Lobanov	114	15
Optimal Design of Bilayer Column Footings – M. B. Krakovskii	118	18
CONSTRUCTIONAL PROPERTIES OF SOILS		
The Use of Ultrasound to Estimate the Strength of Frozen Soils during Working – B. G. Khazin and B. V. Goncharov	122	20
Constructional Properties of Burned Coal-Mine Rocks and Pebble–Sand Mixtures of Vorkuta – I. I. Romanenko	126	23

SOIL MECHANICS
Generalization of P. I. Klubin's Solution of Plane-Contact Problem – Yu. K. Zaretskii .. 129 25
Field Studies of Settlement of the Surface of a Coherent Foundation Bed Loaded by a Test Plate – A. M. Gel'fandbein and L. A. Shelest 133 27
Formation of Zones of Limit Equilibrium in the Foundation bed of a Test Plate – V. F. Petryanin, A. L. Kryzhanovskii, and G. M. Lomize 138 30

Volume 11, Number 3 May-June, 1974

Progress of Engineering Geocryology in the USSR – S. S. Vyalov 141 2

TRIBUNE OF THE ALL-UNION SOCIALIST COMPETITION
Experience in Organizing a Socialist Competition at a Research Institute – V. K. Shchelokov 148 5

FOUNDATION ENGINEERING
Experimental Investigations of Earth Pressure on Walls with Two Relieving Platforms in the Case of Breaking Loads on the Backfill – P. I. Yakovlev 151 7
Experimental Investigations of the Effect of Frost Heaving on Shallow Low-Loaded Foundations – N. S. Shterenfel'd 156 10

ECONOMICS OF FOUNDATION ENGINEERING
Evaluation of the Effectiveness of Using Bored Situ-Cast Pile Foundations for the Production Buildings of the Kama Automobile Plant – R. Kh. Valeev and M. D. Tul'chinskii 161 13
From the Experience of Constructional Organizations "Root-Type" Piles – B. S. Fedorov 166 16
Investigation of the Explosion-Induced Vibration of Buildings – V. A. Potapov 170 18

CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS
The Loads Imposed by Mine Workins on Shallow-Lying Service Ducts – S. N. Klepikov, G. R. Rozenvasser, and I. S. Dubyanskii 174 21
Thermal Effect of Buildings on the Tangential Forces of Frost Heaving of Foundations – V. I. Puskov 179 25
Redistribution of Stresses and Strains in Foundation Beds of Buildings and Other Structures during Construction on Mountain Slopes – V. D. Morozov and E. S. Susenkov 183 27

ADVICE TO DESIGNERS AND INVESTIGATORS
A Field Method for Determining Relative Settlement of Loessial Soils by Static Sounding – V. I. Krutov and B. I. Kulachkin 187 29
Design of Minimum-Volume Foundations – V. G. Stolyarov 192 32
Representation of the Geologic-Lithologic Structure of a Building Site in Plan by Means of Structure Contours – M. S. Vaksenberg 197 35

CONSTRUCTION PROPERTIES OF SOILS
Methods of Accelerated Determination of the Life of Silicate-Stabilized Loess – E. S. Chalikova and E. V. Stepanova 200 37
Use of the Method of Penetrating Radiations for Investigating Soil Deformations – M. N. Okulova and G. S. Gos'kova 204 39

DISCUSSIONS
Standard Values of Specific Tangential Forces of Frost Heaving of Soils – M. F. Kiselev 207 41
Concerning M. F. Kiselev's Article "Standard Values of Specific Tangential Forces of Frost Heaving of Soils" – V. O. Orlov 212 44

INFORMATION
Maritime Territory Scientific and Technical Conference on the Results of Research in 1973 in the Field of Construction in the Far East – V. I. Fedorov 215 45

BOOK REVIEWS
N. A. Tsytovich, Frozen Ground Mechanics: General and Applied – Reviewed by I. I. Cherkasov, M. N. Gol'dshtein, and M. V. Malyshev 217 46
Transactions of the First All-Union Symposium on Soil Rheology – V. M. Karpov 219 47

Volume 11, Number 4 July-August, 1974

FORUM OF THE ALL-UNION SOCIALIST COMPETITION
Improvement of Construction Management – A Guarantee of Success in Socialist Competition (from the Experience of the No. 5 Moscow State Construction and Installation Trust) – M. A. Shutov 221 2

FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS
Construction of Deep Foundations in Vorkuta – L. P. Markizov 225 4
Construction of Greenhouses on Fill – V. V. Levenstam and N. S. Zekun 230 7
Experience in the Construction of Industrial Buildings and Structures on Peat Bases Covered with Mineral Fill – E. V. Makarov 234 9

FOUNDATION ENGINEERING
Investigations of Negative Skin Friction on Piles and Suggestions on Its Calculation – B. V. Bakholdin and V. I. Berman 238 11
Calculation of a System of Hinged Beams on an Elastic Foundation – B. V. Uvarov 245 15

ECONOMICS OF FOUNDATION ENGINEERING
Technical and Economic Comparison of Variants of Foundations of Industrial Buildings on Permafrost for Regions of the Yakut ASSR – V. V. Nesterov and and A. É. Butlitskii 249 18

STRUCTURAL PROPERTIES OF SOILS
Probabilistic Estimation of the Physicomechanical Characteristics of Soils – A. N. Margot'ev 253 20
Correlations between Plasticity Indices of Clays – B. F. Galai 257 23

SOIL MECHANICS
Development of a Practical Method of Solving Problems of the Dynamics of Saturated Soil – B. I. Didukh and D. A. Trifonov-Yakovlev 259 24

INFORMATION
Fifth Conference on Geotechnics in the Estonian SSR – A. Vilo 266 27

AT THE USSR EXHIBITION OF ECONOMIC ACHIEVEMENTS
Machines for Constructing Foundations in Winter – A. E. Volkova 268 28

Volume 11, Number 5 September-October, 1974

Upgrading the Technical and Economic Level of the Design Solutions – B. S. Fedorov 273 2

TRIBUNE OF SOCIALIST EMULATION
Socialist Emulation – A Main Factor in the Increase of the Productivity of Labor in Foundation Construction – F. I. Reznichenko, V. I. Snarskii, N. A. Naumova, and S. A. Kozub 276 3

FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS
Construction of Foundations of Farm Buildings in the Moldavian SSR – V. K. Yarutin 280 5
An Experiment in Building Foundations for Industrial Buildings Designed for a Region of Alluvial Soil – I. F. Votyakov 283 7

	Engl.	Russ.
Experience in Using Chemical Methods to Secure Slope Stability – D. V. Volotskoi	286	9
FOUNDATION ENGINEERING		
Design of Underreamed Piles – A. A. Vovk, A. V. Mikhailyuk, and K. A. Gundarev	290	11
Design of Piles for Horizontal Loading – N. V. Solov'ev, A. I. Kurnosov, and E. I. Baranov	296	14
Design of Foundation Slabs of Complex Configuration and Variable Stiffness – V. I. Solomin and A. S. Sytnik	300	16
Analysis and Jointing of Polygonal Road Slabs – I. A. Mednikov, Yu. A. Molchanov, and L. V. Gorodetskii	306	19
ECONOMICS OF FOUNDATION ENGINEERING		
Economic Evaluation of the Accuracy in the Operation of Pile Driving-Machines – K. N. Kondyrev, V. V. Gerasimov, and I. E. Kalinina	311	23
ADVICE TO DESIGNERS AND INVESTIGATORS		
Installation for Measurement of Vertical Displacement in Mass Backfill – S. V. Dovnarovich	315	25
Combined Determination of Volume and Total Moisture Content of Frozen Soils – G. P. Mazurov	318	26
STRUCTURAL PROPERTIES OF SOILS		
Influence of Adsorbed Gases and Water on the Interactions between the Grains of Loose Soils – V. V. Shandor, Yu. A. Surkov, I. I. Cherkasov, B. V. Deryagin, and Yu. P. Toporov	320	27
Rheological Nature of the Deformations Caused by Swelling in Clays and by Collapse in Loess Soils – A. A. Mustafaev, G. D. Chigniev, and G. R. Nazirova	325	30
Characteristics of the Development of Collapse in Loess Soils with Time – I. G. Rabinovich and M. I. Urinov	331	34
Use of Radioisotope Methods for Investigation of Submarine Depos'ts – I. V. Lavrov, V. E. Romanchuk, and M. I. Smorodinov	334	36
SOIL MECHANICS		
Stresses and Displacements in the Soil under a Circular Foundation – A. S. Snarskii	339	38
Coefficient of Stress Concentration in a Homogeneous Soil Layer – A. P. Sofiyan	345	41
DISCUSSIONS		
Earth Pressures from Clay Soils – S. R. Meschyan and R. P. Malakyan	347	42
INFORMATION		
International Conference on "Genetic Bases of the Engineering-Geologic Investigation of Rocks" – G. V. Sorokina	350	43
Scientific-Technical Seminar on "Pile Foundations in the Construction Industry" – B. V. Bakholdin and E. V. Svetinskii	352	44
Seminar on Analysis of Reinforced Concrete Foundation Mats by Considering the Nonlinear Deformations	355	45
CRITICISM AND BIBLIOGRAPHY		
The First Russian Book on Geology and Soil Science – E. V. Makarov	356	46
Handbook for Determination of the Physical, Thermophysical, and Mechanical Properties of Frozen Soils – Reviewed by A. I. Dement'ev	358	47

Volume 11, Number 6 November-December, 1974

FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS		
Control of the Stressed-Deformed State of Open Caissons during Their Sinking – A. I. Pevzner, A. Ya. Serebro, A. N. Almazov, and O. G. Kedrov	359	2

Foundation Settlement of Stone Buildings on Thawing Soils – F. Ya. Novikov 364 5

FOUNDATION ENGINEERING

Relation between Effectiveness of Pile Hammer and Its Interaction with the Pile – O. A. Savinov and G. G. Azbel' 368 7

Dynamic Loads Transmitted by Drum Mixers to Foundations – M. M. Afanas'ev 371 8

ECONOMY AND ORGANIZATION OF FOUNDATION CONSTRUCTION

Flow-Line Construction of Cast-in-Place Pile Foundations of Farm Buildings – V. K. Yarutin 375 11

CONSTRUCTION PROPERTIES OF SOILS

Settlement and Limiting Equilibrium of a Layer of Weak Soil Underlain by a Rigid Foundation Bed – S. S. Vyalov and A. L. Mindich 381 14

Creep and Creep Strength of Rock Salt – E. S. Oksenkrug and E. M. Shafarenko 387 17

ADVICE TO DESIGNERS AND INVESTIGATORS

Determination of Slide Danger on the Slopes of the Southern Crimean Coast – O. V. Snezhko, V. D. Matveev, and A. G. Gagarkin 391 19

SOIL MECHANICS

Solution of the Mixed Problem of the Theory of Elasticity and the Theory of Plasticity of Soils – A. K. Bugrov 392 20

Bearing Capacity of a Plastically Inhomogeneous Foundation Bed Bounded by an Underlying Rigid Layer – A. S. Stroganov 399 23

DISCUSSIONS

Concerning V. F. Zhukov's Paper "Is It Necessary to Take into Account Natural Pressure When Calculating the Settlement of a Thawing Base?" 404 26

INFORMATION

Conference on Construction on Large Strata of Slump-Prone Loess Soils – R. A. Tokar' 407 27

All-Union Conference on "New Technology and Equipment for Constructing Underground Structures – R. M. Narbut 411 29

REVIEWS AND BIBLIOGRAPHY

N. N. Fotieva. Calculation of Noncircular Tunnel Linings – Reviewed by V. S. Éristov 413 30
